Welcome Message From The President Of The Malaysian Arthroscopy Society (MAS)

Dear Colleagues,

The Malaysian Arthroscopy Society (MAS) has been busy preparing and initiating a variety of educational activities to be held in the North, South, Central, East Coast and East regions of Malaysia. We continue in realising our society's goals to promote, encourage, support and foster through continuing medical education functions; the development and dissemination of knowledge in the discipline of arthroscopic surgery to improve upon the diagnosis and treatment of diseases and injuries of the musculoskeletal system.

While you may get updates on our activities from our website, I would like to take this opportunity to highlight our annual conference. It is with great pleasure that I welcome you to the 6th MAS Annual Scientific Meeting (ASM) and Annual General Meeting (AGM) 2018 here in Kuantan from the 26th to 28th of October 2018. This year's meeting theme is a unique one, Take a Knee to HeΘ, in which we address issues in areas that many Malaysian arthroscopy surgeons specialise in and we believe is the reason many of you are here today. The 6th MAS ASM 2018 Organising Committee, under the leadership of Dato' Dr Badrul Akmal Hisham Md Yusoff, and the Scientific Committee helmed by Assoc Prof Dr Nik Mohd Fatmy Nik Mohd Najmi and Dr Harjeet Singh, have worked tirelessly in putting together a comprehensive and extensive scientific programme that would benefit your practice.

Kuantan, Pahang is considered by many to be the gateway to the East Coast of Malaysia. Many travellers often make a stop in Kuantan before making their way to scenic beach destinations for their holidays. After the meeting, do enjoy the coastal delights the town offers, which is bound to be an enjoyable experience with your peers or with your family.

I look forward to spending the next three days learning with you.

Warm Regards,

Brig Gen Dato' Dr Mohammad Amirrudin Hamdan
President
Malaysian Arthroscopy Society

Foreword From The Organising Chairman Of The 6th MAS ASM 2018

I would like to welcome each and every member of the Arthroscopy fraternity in Malaysia, including Trainees, who have joined us here at the 6th Malaysian Arthroscopy Society Annual Scientific Meeting (MAS ASM) 2018.

We appreciate the feedback we have received over the years in regard to our annual conference and have focused on fine-tuning the meeting to suit the local community, while at the same time maintaining international meeting standards. This year, the theme we have chosen is one that many arthroscopy surgeons in Malaysia have chosen to specialise in, namely the knee and ankle. From the committee's experience and as seen in international arthroscopy meetings, this area is experiencing many developments and advancements. As such, we have provided you with sessions that ideally encompass the latest findings and updates on the specific areas of Knee and Ankle surgery. With the expertise of Dr Harjeet Singh and Assoc Prof Dr Nik Mohd Fatmy Nik Mohd Najmi as Scientific Chairmen for this meeting, I believe that over the next three days, you will experience a great selection of lectures that we hope inspire your practice.

We are glad to have you join us for this installment of our annual meeting in the East Coast. We trust that you will not only receive an education during this period, but also be able to enjoy the fascinating sights and sounds that the capital of Pahang has to offer, from the coastal scenery of Cempedak Bay and nearby Cherating Beach to local delicacies unique to the town.

We congratulate you on taking the initiative to advance your own knowledge with our meeting and look forward to having you join us in the exciting and insightful experiences that lie ahead.

Best Regards,

Dato' Dr Badrul Akmal Hisham Md Yusoff
