

Congress Theme  
**Focal Chondral Defects**

# Master Class on

# CARTILAGE REPAIR

AHMEDABAD, INDIA  
24-25th January 2025

Dear Delegates,

We are happy to announce the second season of *Master Class on Cartilage Repair*, which specifically targets a very niche area called **Cartilage Repair and Joint Preservation**. The Master Class had always been a concept enhancing experience and is always attended by younger colleagues as well as senior colleagues with a similar enthusiasm and dedication. The theme of 'Focal Chondral Lesions' is designed to make it a benchmark event in the field of cartilage repair. In addition, there will be an **MR-Radiology workshop** to improve on better reporting of cartilage and knee pathologies.

Best Wishes  
Team Master Class
